CONTENTS
Volume 57 (1992)

Editorial – Forensic science and animal rights 1–3

The examination of thin sections of coloured paints by light microscopy 5–16
by T.J. Allen (Reading, UK)

A new marker for estimation of bloodstain age by high performance liquid chromatography 17–27
by H. Inoue, F. Takabe, M. Iwasa, Y. Maeno and Y. Seko (Nagoya, Japan)

Experiences with single locus DNA probes in casework 29–37
by M. Greenhalgh, F. Burridge and G. Willott (London, UK)

A new individualization marker of semen: deoxyribonuclease I (DNase I) polymorphism 39–44
by K. Sawazaki, T. Yasuda, D. Nadano, E. Tenjo, R. Iida, H. Takeshita and K. Kishi (Fukui, Japan)

Tuberculous myocarditis presenting as sudden cardiac death 45–50
by A.C.L. Chan and P. Dickens (Hong Kong, Hong Kong)

Strontium-90 as an indicator of time since death: a pilot investigation 51–56
by S.M. Maclaughlin-black, R.J.M. Herd, K. Willson, M. Myers and I.E. West (London, UK)

HIV-1 prevalence among drug deaths in major cities of central and northern Europe 57–62
by K. Püschel, U. Lockemann, V. Schneider, H.-F. Brettel, R. Penning, J. Rajs, A. Fugelstad, B. Kringsholm, D. Risser and B. Vonlanthen (Hamburg, Berlin, Frankfurt and Munich, Germany; Stockholm, Sweden; Copenhagen, Denmark; Vienna, Austria; Zürich, Switzerland)

Margaret Clitherow: skeletal identification of an historical figure? 63–71
by C. Roberts, K. Manchester and A. Storey (Bradford and Cottingham, UK)

Breaking of flat glass — part 3: surface particles from windows 73–80
by J. Locke and J.K. Scranage (Reading, UK)

Anxiety in prisoners today 81–86
by R. Lapornik, M. Lehofer and Ch. Posch (Graz and Innsbruck, Austria)

Letter to the Editor 87–88

Diary of Future Events 89–90

Marks involving PVC plastisol materials in motor vehicle collisions
by R. Kuppuswamy and P.K. Ponnuswamy (Salem and Tamilnadu, India) 91–97

Gas chromatographic detection of cocaine and cocaethylene in hair of mice chronically injected with cocaine or cocaethylene and fed ethanol
by S.V. Pirozhkov, R.R. Watson and C.D. Eskelson (Moscow, Russia; Tucson AZ) 99–107

Sex determination by discriminant function analysis of lateral cranial form
by M. Inoue, T. Inoue, Y. Fushimi and K. Okada (Yonago and Tokyo, Japan) .. 109–117

Chemiluminescent DNA probes: evaluation and usefulness in forensic cases
by N. Dimo-Simonin, C. Brandt-Casadevall and H.-R. Gujer (Lausanne, Switzerland) 119–127

A pathological study of sudden coronary death in China: Report of 89 autopsy cases
by X. Chen and G. Huang (Wuhan, P.R. China) 129–137

Detection of human proteins in buried blood using ELISA and monoclonal antibodies: towards the reliable species indentification of blood stains on buried material
by C. Cattaneo, K. Gelsthorpe, P. Phillips and R.J. Sokol (Sheffield, UK) 139–146
Evaluating suspected co-proxamol overdose
by D.E. Cox and D.J. Pounder (Scotland, UK) 147–156
Dissecting intramural haematoma of the coronary artery with intimal tears
by T. Suzuki, S. Mabuchi, H. Takahashi and K. Umetsu (Yamagata, Japan) 157–161
Use of the Omniprint™ 1000 alternate light source to produce fluorescence in cyanoacrylate-developed latent fingerprints stained with biological stains and commercial fabric dyes
by B.K. Chesher, J.M. Stone and W.F. Rowe (Washington, DC) 163–168
Sudden death associated with solitary intracavitary right atrial metastatic tumour deposit
by P. Dickens, C.S.P. Poon and M.S. Wat (Hong Kong, Hong Kong) 169–173
Comparison of sizes of pellet patterns fired with different lots of 0.410 gauge no. 4 shotshells
by P. Halvorsen and W.F. Rowe (Washington, DC) 175–180
Firearm deaths in Yorkshire and Humberside
by J. Chapman and C.M. Milroy (Sheffield, UK) 181–191
Comparing roadside with subsequent breath alcohol analyses and their relevance to the issue of retrograde extrapolation
by R.G. Gullberg and A.J. McElroy (Washington, USA) 193–201
Book Reviews 203–207
Diary of Future Events 209–210
Subject Index 211–213
Author Index 215
Volume Contents 217–218
